Re-order minimum quantity: 1+

We use a proprietary blend of natural gum rubber to vulcanize your deeply etched stamp sheets. This gives you and your customers the highest quality rubber stamp product resulting in better ink transfer on more crafting surfaces. Your stamps can be safely used with any type of crafting inks.

One Time Setup Charge

Each time you submit a new artwork collection for rubber sheet production, there is a one time setup charge. Quantity 25 rubber sheet minimum initial order with each new setup. There are no other production charges or minimums when you re-order rubber sheets from artwork collections on file. You retain the copyrights to all of your artwork. Rubber stamps are only produced for you at your request.

Note: Setup materials are consumables which wear out and are replaced during production of re-orders as needed, at no additional charge. We do not forward or sell setup materials or equipment involved in the manufacture of rubber stamps. This includes, but is not limited to, film, hard copy proofs, plates, molds, release agents, die tooling, heated presses, and raw gum rubber.

Volume Discounts: If you have more than one artwork collection on file, you may combine orders of collections and/or mounting options to increase your total volume discount. This applies to collections (sheets) only and does not include single stamp orders from our other price list(s).

Rubber on cling cushion (optional)

Prices shown for 'rubber on cling cushion' include the rubber sheet attached to cling cushion mounting foam. Our cling cushion is 1/8" thick gray cushion with adhesive on the rubber stamp side and static cling vinyl on the other. Cling stamps are intended for use with acrylic blocks.

25% surcharge applies for custom sizes, not listed above.

Customer is responsible for all shipping charges and any applicable duties, taxes or import fees (international customers).
