| 9 | rubber on cling cushion | \$ 4.90 | \$ 3.85 |
| 12 | unmounted (rubber only) | \$ 4.65 | \$ 3.65 |
| 12 | rubber on cling cushion | \$ 5.25 | \$ 4.25 |

Minimum *initial* order quantity: 25 stamps (per setup)

Re-order minimum quantity: 12

How to Calculate Total Square Inches:

Example 1 : Your artwork (design size) measures 3" x 2" This is 6 sq inches.

Example 2: Your artwork (design size) measures 1.2" x 1.2". This is priced at 4 sq inches.

Example 3: Your artwork (design size) measures 5.5" x 5.5". This is priced on the collections price list as 4x6

Note: If your design is greater than 12 sq inches, refer to the Collections Price List.

We use a proprietary blend of natural gum rubber to vulcanize your deeply etched stamp sheets. This gives you and your customers the highest quality rubber stamp product resulting in better ink transfer on more crafting surfaces. Your stamps can be safely used with any type of crafting inks.

One time setup charges

Each time you submit a new stamp design for rubber stamp production, there is a one time setup charge. There is a quantity 25 rubber stamp minimum initial order with each new setup. There are no other production charges when you re-order rubber stamps from stamp designs on file. You retain the copyrights to all of your artwork. Rubber stamps are only produced for you at your request.

Note: Setup materials are consumables which wear out and are replaced during production of re-orders as needed, at no additional charge. We do not forward or sell setup materials or equipment involved in the manufacture of rubber stamps. This includes, but is not limited to, film, hard copy proofs, plates, molds, release agents, die tooling, heated presses, and raw gum rubber.

Volume Discounts: If you have more than one single design setup on file, you can combine orders and/or mounting options to increase your total volume discount. This applies to single stamp designs only and does not at artwork collections ordered with singles.

Rubber with Cling Mounting Foam Attached (optional)

Prices shown include assembly onto your rubber stamps. The rubber stamp and mounting foam are cut together into neat rectangles/squares leaving a small margin around the design.

Our cling cushion is 1/8" thick gray cushion with adhesive on the rubber stamp side and static cling vinyl on the other for use with acrylic blocks.
